John Clatworthy had a very attentive audience when he was talking about his orchidhouse.

The ladies served up a lovely morning tea. The group split into 2 so that everyone could relax while the others inspected the orchidhouse.

It's a long way to the other end!!!! John has one BIIG house.

Greg has five smaller houses - not so far to walk!

Two completely different setups, but both very successful. It just goes to show that it doesn't have to be "conventional" to work.

Not a bad turn-up for lunch. We certainly took up most of the Restaurant at the Redlands Sports Club. The meal was very good, fast service and served hot. The end to a very enjoyable and informative day.
